FmHA AN No. 1871 (1940)

February 24, 1989

■
SUBJECT: Environmental Reference Document

TO: All State Directors, District Directors,
and County Supervisors, FmHA

ATTN: State Environmental Coordinators

Purpose/Intended Outcome:

The purpose of this AN is to inform the field offices that they will shortly be receiving an environmental document to assist them in meeting their environmental review and decisionmaking responsibilities.

Comparison with Previous AN:

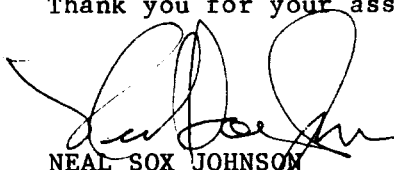

This AN announces the availability of a new environmental reference document. The original document was referenced in FmHA AN No. 1388, April 8, 1986.

Implementation Responsibilities:

The Fish and Wildlife Service will be republishing Endangered and Threatened Wildlife and Plants Lists containing all changes through January, 1989.

The Finance Office in St. Louis will distribute the document in March. Each County, District, and State Office will receive one copy of the endangered species list. The new list should be placed in your three-ring binder of environmental documents under the tab labelled "Endangered Species." Discard the outdated listing.

Thank you for your assistance in this matter.
